Docket No. 98N-1265

05/11/99 MAY 14 P3:22

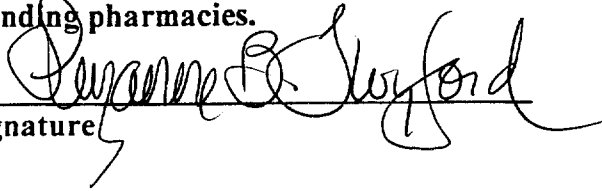

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: \_\_\_\_\_

- The making and shipping of compounded prescriptions has improved my quality of life immeasurably. It allows me to have estrogen replacement medication customized by my gynecologist for my severe menopausal symptoms and delivered to my door.

- Pressure from big pharmaceutical companies to inhibit this process appears to be yet another intrusion on the rights of individuals to have control over their own bodies.

- The right of individuals to receive natural therapies compounded to their own specifications fills an important need in our society. Please respect this need.
